

mutiple drill, for yoke ends.....	169
multiple drilling, reversible type.....	190
open, design of.....	25
open drill, examples of.....	33
open type.....	13
open type, design of.....	21
piston drill, with floating clamps.....	260
screws and nuts for, tables.....	116
screw tightening devices for.....	118
star hand wheels for, table.....	121
swinging leaves for.....	123
types of.....	ii
universal.....	183
vise type.....	170
weight of.....	7
with-lever- and spring-operated clamping members.....	159
Jigs and fixtures.....	i
difference between.....	3
object of.....	i
providing for upkeep.....	306
special mechanisms for.....	288
Jig-screw latches, dimensions, table.....	122
Keyways used as means of locating work.....	106
Knobs, dimensions, table.....	121
Lap, external, for jig bushings.....	87
for jig bushings.....	81
Lapping and grinding bushings.....	80
allowances for, table.....	79
Lapping jig bushings, abrasives used.....	81
Latches for jigs, dimensions, table.....	122
Latch nuts, dimensions, table.....	121
Lathe carriage casting, planing fixture for.....	235
Leaves, swinging, for jigs.....	123
Liner, recoil cylinder, profile milling fixture for.....	233
Lining bushings, table of dimensions.....	72
Locating and clamping devices, three-point.....	277
Locating, by keyways in the work.....	106
by means of V-blocks.....	92
Locating devices, automatic, for drill jig.....	151
double three-point.....	285
special, on jig.....	164
with floating pressure compensator.....	267
Locating in jigs by means of pins and studs.....	92
Locating points.....	9 <sup>2</sup>
adjustable.....	97
cup and cone.....	94
